

Hollydale Primary School

‘When used well Pupil Premium has the possibility to open up a whole new world for a child who may never have experienced what you and I may have always taken for granted’

Pupil Premium Grant expenditure: expenditure and Impact for 2016-17

At Hollydale the aim of the Pupil Premium is to reduce the achievement gap for disadvantaged children by implementing the most effective educational interventions to address these barriers within the school.

The school received funding to target pupils who are eligible for or who have been eligible for Free School Meals within the last 6 years and/or have been looked after. These pupils received additional support and access to extracurricular activities and programmes as required.

The Pupil Premium provides an opportunity to review existing approaches to see if they are effective and to look at new or innovative means of improving standards for all.

- We ensure that teaching and learning meets the needs of all the pupils
- We ensure that appropriate provision is made for pupils who belong to vulnerable groups, this includes ensuring that the needs of socially disadvantaged pupils are adequately assessed and addressed
- In making provision for socially disadvantaged pupils, we recognize that not all pupils who receive FSM will be socially disadvantaged
- We also recognise that not all pupils who are socially disadvantaged are registered or qualify FSM. We reserve the right to allocate the pupil premium funding to support any pupils or groups of pupils the school have legitimately identified as being socially disadvantaged
- PP funding is allocated on a needs analysis which will identify priority classes, groups and individuals. Limited funding and resources means that not all children receiving pupil premium will be targeted with interventions at one time
- Pupil premium resources may be used to accelerate progress and close attainment gap and/or to target able children on FSM to achieve expected levels at the end of KS1 or Exceeding levels at end of KS2
- Pupil Premium allocation can also be used for supporting families which impacts on the well-being of the child e.g. school trips, uniform
- The school publishes information on how the school used pupil premium grant to address the issue of ‘narrowing the gap’ for socially disadvantaged pupils

**Pupil Premium
2016-17**

Number of pupils and premium grant (PPG) Received	
Total number of pupils on roll:	233
Total number of eligible for PPG:	144
Amount of PPG received per pupil	£1320
Total amount of PPG	£190,080.00

	Objective	Activity	Number of Children	Cost	Impact
